ATLAS GLOBAL TRADING INC.

TECHNICAL DATA SHEET / PROCUREMENT REFERENCE

Hazelnut Oil

Product identity

Botanical source: Corylus avellana. Origin program: Türkiye. Confirm crop year, processing site and lot identification in the purchase specification.

Published specification benchmarks

Free fatty acidity (as oleic)
Refined programs commonly specify low acidity; many buyers set explicit max limits for refined oil. (Example target: ≤0.30% as oleic for refined.)

Peroxide value (PV)
Defined maximum PV on loading; optional stricter limits for long shelf-life or cosmetic base programs

Moisture & volatile matter
Controlled to reduce hydrolysis and improve storage stability

Lot approval and packing

Agree the method, sampling plan, acceptance limits, pack size and destination before order confirmation. Request the current signed specification, allergen and cross-contact statement, and the certificate of analysis for the offered lot.
